233 Collins Street, Melbourne

This award winning building* is situated in the very heart of Melbourne. With a Collins Street address, this former office building has been provided with a new lease of life as an apartment building.

Totally renovated and with an addition of two stories the building is now home to 155 sun filled apartments. In a mix of 1 and 2 bedrooms, each apartment features European kitchen appliances, modern bathrooms and video security. A new series of balconies to the west wall provides a stunning architectural feature as well as creating the opportunity for residents to take advantage of the northerly and westerly sunlight.

*Master Builders Association, Award of Excellence, Construction – Existing Building [\$10M to \$50M]
